

Care & Maintenance

Modacrete's surfaces are very easy to care for and maintain. Simple soap and warm water are all that is usually necessary for cleaning. Maintain with a liquid stone polish periodically and your concrete surface will maintain its luster for years to come. Modacrete products are also very heat, scratch, stain and etch resistant but not heat, scratch, stain and etch proof. Therefore, the use of trivets or hot pads is recommended when cutting or placing hot pans on the surface and spills should be cleaned up in a reasonable amount of time.

Routine Care:

For routine cleaning simply wash with a soft cotton cloth and warm water, use a mild dish or hand soap if desired.

For hand and dish soap cleaners use:

- Dawn Ultra Concentrated Dishwashing Liquid
- Dial Complete Antibacterial Foaming Hand Wash
- Dawn Ultra Antibacterial Dishwashing Liquid
- J.R. Watkins Dish Soap
- J.R. Watkins Hand Soap
- Palmolive Ultra Concentrate
- Palmolive Ultra Antibacterial Dish Liquid

If you have difficult dry or wet spills and desire to use a cleaner, Modacrete recommends you use one of the following products:

- Miracle Counter Kleen
- Simple Green D Pro 3 Cleaner
- Simple Green Extreme Clean
- Windex Multi surface w/out vinegar
- Formula 409 daily cleaner
- EcoPure EP64 Neutral PH Cleaner
- Clorox Anywhere (Hard Surfaces)
- Fabuloso Multipurpose Cleaner
- Joy Ultra Concentrate Antibacterial
- Mr. Clean Multi-surface wipes
- Pledge Multi-surface Cleaner
- Quartz Bright Daily Cleaner

Avoid using any variation from the products listed above, as most brands have multiple variations of product types that may include chemicals or additives that could damage the surface.

For cleaning difficult spills apply the recommended household cleaner on a damp cloth or sponge and wipe the surface, rinsing thoroughly with water after cleaning. To remove adhered material such as food, gum, nail polish, etc. first scrape away the excess material and then proceed to clean the surface as stated above.

DO NOT use abrasive or strong alkaline or acid cleaners outside of 5-8 PH such as oven grill cleaners, floor strippers, toilet bowl cleaners, oil based soaps, tarnish removers, drain products, etc as they may damage the surface. AVOID exposing surface to wet inks, dyes or acidic materials for long periods of time.

Routine Maintenance:

For routine maintenance or to revitalize your surface Modacrete recommends the use and application instructions of Miracle brand Stone Polish.

Damage or repair:

If you have a mark that you are unable to remove, damage your surface and are in need of repairs please contact your local authorized Modacrete dealer.
